Outcomes and Impact

Community Benefit:

- Glasgow OPEN Apps and community mapping
- Building on community asset development work: Local Assets (Ward 14); Easterhouse Community Recovery Map; Gorbals Heritage Walking Map

Recognition:

- Winner - Geospatial World Excellence Awards
- Winner - Holyrood Connect ICT (*Innovation*)
- Winner - Flourish Awards (*World Class City*)
- Finalist - Eurocities 2015 (*Participation*)
- Winner - NextGen Digital Challenge (*Digital Innovation*)
- Winner - Public Sector Sustainability Awards (*Gold Award*)

Moving forward and Legacy

1
Demonstrating the value #1
Transparency

2
Demonstrating the Value #2
Market Insight

3
Demonstrating the Value #3
Regeneration Insight

4
Demonstrating the Value #4
Communities

5
Demonstrating the Value #5
Service Reform

6
Demonstrating the Value #6
Innovation

Glasgow is:

- Disseminating learning from Future City Glasgow programme
- Use Cases and programme evaluation (Dec 2015)
- Sharing via www.futurecity.glasgow.gov.uk or
- www.open.glasgow.gov.uk
- Future Cities Team developing projects (GOC and Demonstrators) – focus on Intelligent Street Lighting and Wi-Fi
- 'Sustainable and Smart' lead for Scottish Cities Alliance
- Lead Partner for ERDF Strategic Intervention 'Scotland's 8th City – the Smart City'

ERDF 2014-20 Operational Programme
Strategic Intervention: Scotland's 8th City - the Smart City

- Glasgow is Lead Partner for 'Scotland's 8th City - the Smart City', a £10M programme across all Scottish cities (Aberdeen, Dundee, Edinburgh, Glasgow, Inverness, Perth, Stirling).
- Smart City: The integration of data and technology into a strategic approach to sustainability, citizen well-being and economic development.
- Data and Technology themes - delivered via 'smart' clusters.
    - Data
    - Smart Infrastructure
    - Smart Communities
    - Smart Services (Energy)
    - Smart Services (Health)
    - Smart Services (Mobility)
    - Smart Services (Public Safety)

ERDF 2014-20 Operational Programme
Strategic Intervention: Scotland's 8th City - the Smart City

- In addition to Output Indicators on the development of Innovative Services and making available Open Data Sets, the '8th City SI' has the following strategic aims:

  - reduce CO_2 emissions from the use of ICT
  - alleviate traffic congestion through smart mobility planning
  - increase citizen engagement by use of mobile technology and social media
  - reduce energy use through smart metering and smart grids
  - promote better care through new telecare and telehealth technology services.
